الرؤية

نحو مجتمع | يتعلم | يفكر | يبتكر

نحو مجتمع مصري "يتعلم يفكر يبتكر" هي المبادرة التي أطلقها الرئيس عبد الفتاح السيسي خلال عيد العلم عام ٢٠١٤. و من خلالها بدأت المجالس التخصصية التابعة لرئاسة الجمهورية في محاولات إطلاق مشروعات قومية تهتم بتنمية التعليم و طرح حلول لعلاج هذه المشكلة.

و بفضل إيمان القيادة السياسية بأهمية التعليم لغد افضل جاءت مبادرة رئاسة الجمهورية بإطلاق المشروعات القومية كمشروع تأهيل الشباب للقيادة و كذلك "بنك المعرفة المصري".

Web of Science: Core Collection

WEB OF SCIENCE™

Web of Science Core Collection carefully selects and methodically indexes the world's most influential scholarly literature across all disciplines. Over the fifty-two year history of citation indexing, it has become the premier gateway to search and discovery for the world's vital research literature, including journals, books, and conference proceedings.

Web of Science: Core Collection (Cont'd)

Science Citation Index Expanded (1900-Current)

provides researchers, administrators, faculty, and students with quick, powerful access to the bibliographic and citation information they need to find research data, analyze trends, journals and researchers, and share their findings.

Social Sciences Citation Index (1900-Current)

provides researchers, administrators, faculty, and students with quick, powerful access to the bibliographic and citation information they need to find research data, analyze trends, journals and researchers, and share their findings.

Arts & Humanities Citation Index (1975-Current)

provides researchers, administrators, faculty, and students with quick, powerful access to the bibliographic and citation information for journal articles in the arts & humanities that they need to find research data, analyze trends, journals, and researchers, and share their findings.

Conference Proceedings Citation Index (Back to 1990)

helps researchers access the published literature from the most significant conferences, symposia, seminars, colloquia, workshops, and conventions worldwide.

Book Citation Index (Back to 2005)

connects a library's book collection to powerful new discovery tools, giving researchers the ability to quickly and easily identify and access the most relevant books.

ENDNOTE

EndNote™

EndNote® enables you to move seamlessly through your research process with flexible tools for searching, organizing and sharing your research, creating your bibliography and writing your paper. You can sync your EndNote library across your desktop, online, and iPad so all your references, attachments, and groups can be accessed from anywhere.

The screenshot displays the EndNote web interface. At the top, there is a navigation bar with the 'Clarivate Analytics' logo and a menu with options: 'EndNote™ basic', 'My References', 'Collect', 'Organize', 'Format', 'Match', 'Options', and 'Downloads'. The 'My References' tab is currently selected.

On the left side, there is a sidebar with a 'Quick Search' section containing a search box and a dropdown menu set to 'All My References'. Below this, there are sections for 'My References' (30 items), 'Trash' (0 items), and 'My Groups' (Ebola (0), laser (11), Laser (Alex) (8)). At the bottom of the sidebar, there is a 'ResearcherID' badge.

The main content area is titled 'All My References'. It features a 'Show 10 per page' dropdown, a pagination control showing 'Page 1 of 3', and a 'Go' button. Below this, there are action buttons: 'All', 'Page', 'Add to group...', 'Copy To Quick List', and 'Delete'. The references are sorted by 'First Author -- A to Z'.

At the bottom right of the interface, there is a blue notification box that says: 'Working on a group project? Check out Library Sharing on X8' with an 'EN' logo and a 'Close' button.

INCITES

Journal Citation Reports

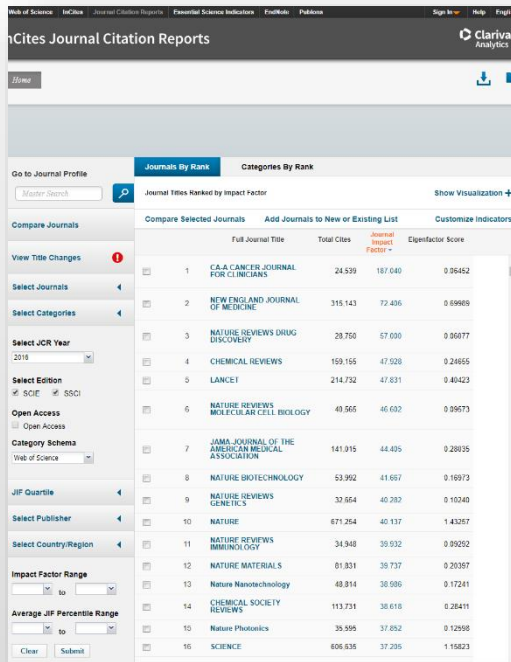

offers a systematic, objective means to critically evaluate the world's leading journals, with quantifiable, statistical information based on citation data. It helps to measure research influence and impact at the journal and category levels, and shows the relationship between citing and cited journals.

Essential Science Indicators

can determine the influential individuals, institutions, papers, publications, and countries in their field of study — as well as emerging research areas that could impact their work.

InCites Benchmarking & Analysis

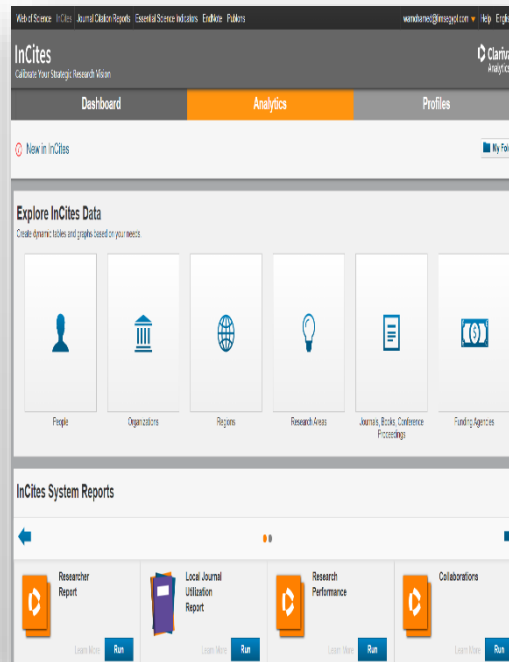

a customized, web-based research evaluation tool that allows you to analyze institutional productivity and benchmark your output against peers worldwide. With customized citation data, global metrics, and multidimensional profiles on the leading research institutions, InCites gives comprehensive insight into your institution's performance.

Description

For over 135 years, Elsevier has been helping professionals advance knowledge by expanding the body of information, and enabling it to yield positive, measurable results. Elsevier is an information solutions company with roots in publishing scientific, medical, and technical literature. We continue to produce intellectual content—largely in the form of digitized books, journals, and proprietary databases—via web-based and offline channels. In addition through our platforms, we provide integrated technology and analytics that enable clients and end-users to do 'more with' information: to interact with it, manipulate it, share it, and extract intelligence with greater flexibility, efficiency, and creativity.

Description

With more than 51,000 members and an international publishing and knowledge business we are the UK's professional body for chemical scientists, supporting and representing our members and bringing together chemical scientists from all over the world. A not-for-profit organisation with a heritage that spans 170 years, we have an ambitious international vision for the future. Around the world, we invest in educating future generations of scientists. We raise and maintain standards. We partner with industry and academia, promoting collaboration and innovation. We advise governments on policy. And we promote the talent, information and ideas that lead to great advances in science. In a complex and changing world, chemistry and the chemical sciences are essential. They are vital in our everyday lives and will be vital in helping the world respond to some of the biggest challenges. We are committed to promoting, supporting and celebrating inclusion and diversity. We understand that the success of our community depends on our ability to nurture the talent of the best people regardless of who they are or their background. We're working to shape the future of the chemical sciences – for the benefit of science and humanity.

incision

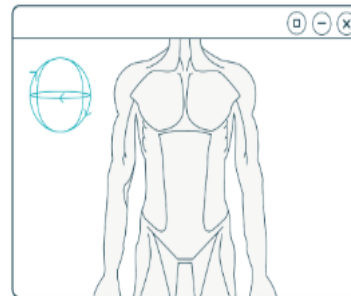

When you have to be right™

We help surgical professionals

Incision gives people access to shared experiences, skills and expertise. We provide tools to get a quicker and more thorough preparation for the OR.

We create a common surgical language to streamline the communication in the operating theatre, and with colleagues around the world. We're structuring the steps it takes to perform surgery and we're making it available. Everywhere, for everyone.

Incision Academy

Smart learning tools

In the Academy it's possible to evaluate your knowledge by taking a test. In each course you'll find valuable content including pre/post operative chapters, objectives and learning goals.

High quality visualisation

Every procedure is filmed from a surgeons point of view and available in 3D. Our anatomical highlights and 3D inlays provide a better understanding of different anatomical structures.

Endorsed production

The Academy is developed according to international guidelines. It's supervised by senior surgeons. We are accredited as an institution by leading establishments such as the RCSE.
